Ambuja Cements' Bhatapara and Roorkee plants win Platinum & Gold Awards for Environmental Excellence

EDITOR'S SYNOPSIS

- Ambuja Cements Bhatapara plant receives Apex India Green Leaf Platinum Award 2023 for Environmental Excellence, for its implementation of various environmental practices.
- Ambuja Cements Roorkee plant receives Apex India Green Leaf Gold Award 2023 for Environmental Excellence, to mark its water stewardship initiatives.

Ahmedabad, 3 June 2024: Ambuja Cements, the cement and building material company of the diversified Adani Portfolio, receives the environment excellence Platinum and Gold Awards for its Bhatapara and Roorkee plants, respectively at the 8th Apex India Excellence Awards.

Ambuja Cements' Bhatapara plant has been recognised for its deployment of green energy solutions including solar power, as well as Waste Heat Recovery System (WHRS), which collectively contribute to about 30% of its power utilisation. The plant is also 8-times water positive, making it a prime example for water conservation. For these best practices, it has been bestowed the Apex India Green Leaf Platinum Award 2023 for Environmental Excellence.

Meanwhile, the Ambuja Cements' Roorkee plant has been feted with the Apex India Green Leaf Gold Award 2023 for Environmental Excellence owing to its promotion of efficient water use and conservation practices, through which it has reduced its water consumption by a staggering 33%.

Mr. Ajay Kapur, CEO – Cement Business, Adani Group, said, "These accolades are a recognition of our relentless pursuit of operational excellence through constant improvements in efficiencies, as well as our unmoving focus on environmental stewardship through the facilitation of the most innovative green technologies. Our product portfolio of more than 85% blended green cement is complemented by these diligent efforts at our manufacturing plants."

These awards highlight Ambuja Cements' leadership position in sustainability efforts which have resulted in the Company becoming 11x water positive and 8x plastic negative.

About Ambuja Cements Limited

Ambuja Cements Limited, is one of India's leading cement companies and a member of the diversified Adani Group – the largest and fastest growing portfolio of diversified sustainable businesses. Ambuja, with its subsidiaries ACC Ltd. and Sanghi Industries Ltd has taken the Adani Group's cement capacity to 78.9 MTPA with 18 integrated cement manufacturing plants and 19 cement grinding units across the country. Ambuja has been recognised among 'India's Most Trusted Cement Brand' by TRA Research in its Brand Trust Report, 2024 and among 'Iconic Brands of India' by The Economic Times. Ambuja has provided hassle-free, home-building solutions with its unique sustainable development projects and environment-friendly practices since it started operations. The company has many firsts to its credit – a captive port with six terminals that has facilitated timely, cost-effective and cleaner shipments of bulk cement to its customers. To further add value to customers, the Company's innovative products like Ambuja Cement, Ambuja Plus, Ambuja Compocem and Ambuja Kawach are now enlisted in GRIHA product catalogue. These

products not only fulfil important customer needs but also help in significantly reducing their carbon footprints. Being a frontrunner in sustainable business practices, Ambuja Cements ranks among 'India's Top 50 companies contributing to inclusive growth' by SKOCH and 'India's Top 50 Most Sustainable Companies' Cross-Industry by BW Businessworld.
