

# Novel Coronavirus (COVID-19)

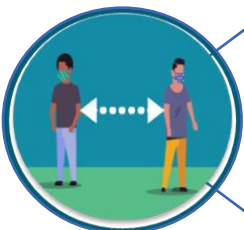

## COVID Personal Behaviours

I will always ensure personal hygiene by regular hand wash, shower after every shift/ visit outside and covering my face while sneezing/ coughing

I will wear a mask on leaving home, while commuting and during the job specially when working next to a colleague

I will always try to maintain social distancing of 6 feet at all times

I will always report:

- If I/ family member/ colleague has common cold/ flu symptoms
- Somebody visits/ comes home from outside the village/ ward/ district
- A COVID case if confirmed near my house

I will always intervene when I observe non-compliance to the behaviours above
