

**WE'RE VISIBLE ON THE
WORLD STAGE.
FOR REMAINING INVISIBLE
WHERE IT MATTERS.**

.....
*Dow Jones Sustainability Index (DJSI) 2018 ranks
Ambuja at No.5 globally.*

When sustainability isn't merely a goal, but at the core of one's processes, the results show. This year, we become the highest ranked Indian cement company to feature on the DJSI, at a global rank of No.5, in the Construction Material category. With a perfect 100 score in varied areas, from Materiality and Sustainable Construction to Tax Strategy, Environmental Reporting to Environmental Policy, Management Systems and Water-related Risks. We owe this ranking to our 360-degree approach to sustainability, which encompasses economic, environmental and social impact. This holistic attitude has deep roots. It flows from the 'I Can' spirit of our people, who take it upon themselves to raise sustainability levels, and set new global standards. However, this ranking isn't the only figure our stakeholders would approve of. Here are the results for the quarter and nine months ended September 30, 2018.

| STANDALONE FINANCIAL RESULTS FOR THE QUARTER AND NINE MONTHS ENDED SEPTEMBER 30TH, 2018. | | | | | |
|-------------------------------------------------------------------------------------------------|----------------|-----------------------------|-----------------------------|---------------------------------|---------------------------------|
